How to call l3 in bfc ?

root4star [1] .x bfc.C(1,"trs es99 tpc l3","/star/u2e/flierl/geant2/pions.fzd")

What is done then ?

the l3 online clusterfinder code is called and points are filled

the l3 tracking code is called and tracks are filled

that means you have two sets of points and two sets of clusters; produced by offline and l3 respectively

Where to find l3 points and tracks ?

bfc/.make/l3/.make/l3Clufi/.data/L3hit

bfc/.make/l3/.make/l3Tracks/.data/l3Track

Performance of the clusterfinder :

- 50 pions produced in geant
- 1930 points (on track) found by offline clusterfinder
- 1881 (97%) found by l3 clusterfinder
